

REVERA[®]

Quartz that captivates by Bedrosians Tile & Stone[®]

bedrosians.com

Origins

Influenced by cutting-edge design and innovative technology, Revera® offers quality natural quartz surfaces, combining the charm of natural stone with supreme material strength. With superb diversity in aesthetic options, Revera® is highly durable, low maintenance, and remarkably versatile. Signifying the essence of natural beauty and elegance, Revera® offers creative freedom to revitalize your space with grace and sophistication.

Charming Design

Meticulously designed, Revera® offers an extensive array of stylish and trend-setting slabs, available in a myriad of colors, patterns, and sizes.

Durability

Revera® is known for its durability and stain resistance, with the application of an appropriate sealant.

Low Maintenance

Engineered with quality natural quartz and resins, Revera® is a non-porous surface, providing a 99.9% bacteria-free and sanitary environment with easy cleaning.

Versatility

Revera® is unique, modern, and ideal for indoor residential and commercial applications. Inspired by natural beauty, innovation, and quality, it is suitable for kitchen countertops, table tops, and bathroom vanities.

Beauty In The Making

Revera® is engineered using the most cutting edge processes found anywhere in the world, creating quartz surfaces that mirror the look, color and detail of natural stone, but without all the maintenance. Resistant to scratches and stains, Revera® is also high-density and rigid, making it ideal for use where fragile just won't do. It's sold in slabs of multiple sizes and thicknesses, offering an array of options for specific applications and fits.

Sized To Perfection

As impressive as Revera® is to read about, seeing it on a grand scale will leave you in awe. Manufactured as large-format slabs in multiple sizes and thicknesses, you can select what's best for your space. And as opposed to natural stone, Revera® slabs are uniform from edge to edge, so you'll get the most out of each one.

Innovative Quartz For Commercial Spaces

Innovation is what makes businesses thrive, whether they're in a corporate office or a retail space. There's no better surface that embodies that spirit than Revera® Quartz, our most technologically advanced quartz yet.

Sold in slabs of multiple sizes and thicknesses, Revera® offers an array of options for specific applications and fits.

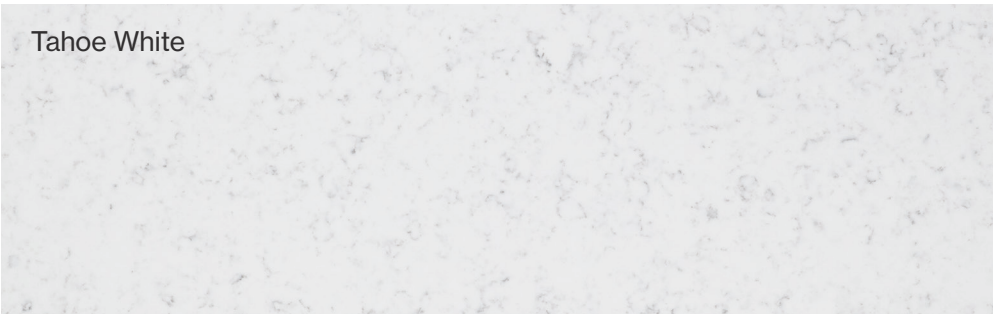

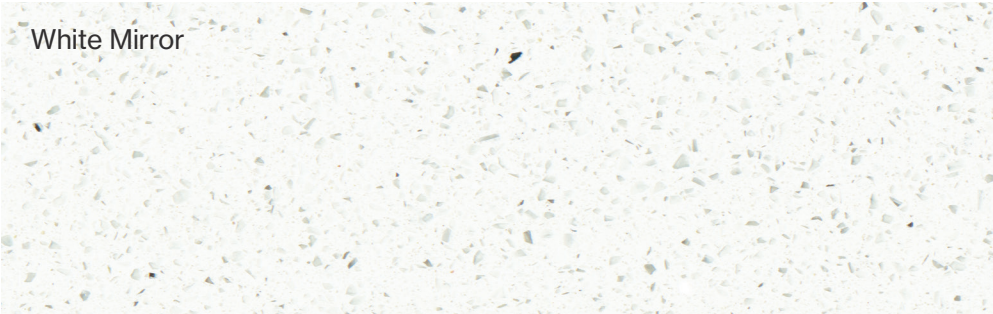

Cut Costs, Not Corners

For projects requiring customization and finding efficiencies on a large scale, Revera® can be cut to size at the factory then shipped directly to your job site where it's ready for installation. We'll cut custom shapes, openings and edges, then polish as needed. Our streamlined, cut-to-size program has been used for apartment buildings, hotels, condos, dorms and more.
